

Server resources & permissions

Jouw Plesk server heeft bepaalde limieten, zoals bijvoorbeeld het maximaal aantal GB opslagruimte en dataverkeer. Hoeveel resources jouw server gebruikt, kan je terugvinden in 'My resources and permissions overview'.

The screenshot shows the Plesk Home page. On the left is a dark sidebar with the Plesk logo and a list of navigation items: Home, Hosting Services, Customers, Domains, Subscriptions, Service Plans, Tools & Utilities, WordPress, Laravel, Links to Additional Services, Google Authenticator, My Profile, Profile, and Change Password. The main content area has a search bar at the top and a 'Home' heading. Below this is an 'Overview' section with a table of server statistics:

Setup date	Nov 28, 2023
Service plan	Nexxwave demo
Disk space	0 MB used of 75 GB
Traffic	0 MB/month used of 20 TB/month

Below the table are two links: 'View detailed resource usage' (with a bar chart icon) and 'My resources and permissions overview' (with a document icon). A red arrow points to the 'My resources and permissions overview' link. At the bottom of the Overview section is a table with server statistics:

Customers	1 total	[add new]	0 overusing
All subscriptions	2 total		0 overusing
Service plans	3 total	[add new]	

Resources

In onderstaand voorbeeld zien we een server met een limiet van 75 GB opslagruimte en 20 TB maandelijks dataverkeer.

Subscription Overview

This is the overview of your subscription, it includes information on the amount of used vs. provided resources.

ResourcesPermissions

Your subscription allows overselling resources, which means that you can sell more resources than resource allocation.

Oversell policy On

This is a summary on usage of resources provided with the subscription.

Domains	2 used of Unlimited
Subdomains	0 used of Unlimited
Domain aliases	0 used of Unlimited
Disk space	0 MB used of 75 GB
Traffic	0 MB/month used of 20 TB/month
Additional FTP accounts	0 used of Unlimited
Databases	0 used of Unlimited
Mailboxes	0 used of Unlimited
Mailbox size	Unlimited
Mailing lists	0 used of Unlimited

Permissions

Op jouw server zijn ook enkele restricties van toepassing, zoals bijvoorbeeld dat je geen anonieme FTP gebruikers kan aanmaken, of dat je geen externe toegang tot de MySQL databases kan geven. Deze restricties zie je in het tabblad 'Permissions'.

Dezelfde 'Permissions' vind je terug in de [service plans](#) die je kan aanmaken. Maar let op: Ook al vink je in je service plan aan dat 'Anonymous FTP management' toegelaten is, als dat op jouw server niet toegestaan is, dan zal dit de instelling van je service plan overschrijven.
